FOR IMMEDIATE RELEASE

### **Dawson Named Chief Operating Officer**

*Walker's Business Products and Services Continues Forward Movement*

Placerville, CA- Walker's Business Products and Services continues their expansion to meet the needs of its diverse customer base and the community-at-large. As Chief Operating Officer, Scott Dawson brings 23 years of experience in supply chain management, business development and strategic planning in the office products arena. Walker's, a solutions-based organization, has experienced growth and expansion in El Dorado County since 1992. In a collaborative way, Dawson joins Darrell Hinz, CEO and John Keltner, Vice President of Client Services, in upgrading business solutions and development aspects. Enrichments in products, services and customer service will follow. Dawson holds a Bachelors of Science in Business Administration from the University of Denver, adding depth to Walker's distinct employee culture.

"Over the past couple of years, Walker's and I have built a relationship based on similar business values and goals. The timing of this opportunity was perfect in that we are poised to take the company to the next level in order to maximize customer relationships and product development," stated Dawson.

Product and service offerings at Walker's are integrated to include office essentials, Internet services, furniture systems design and audiovisual components, all supported

by specialists. Product availability is consistent and sales professionals are committed to superior service levels. Walker's believes in adding value to the customer experience, so with that in mind, a remodel of the existing Client Services Center is slated to better showcase office furniture products and to effectively streamline internal operations.

"At Walker's, we take pride in working one-on-one with our customers to provide resources that integrate, enhance and streamline tasks. With Scott's addition to the Walker's team, we are taking our company to the next level of growth and customized business solutions delivery," said Hinz.

As Keltner added, "This is an exciting time for us as well as an opportune time for our customers who will benefit from these enhancements. With Scott on board, our relationship with key suppliers becomes even stronger, ensuring Walker's adaptability in today's market. It also strengthens our capability of being one source for your business needs," said Keltner.

Visit Walker's at 687 Placerville Drive in Placerville or on the web at [www.walkersontheweb.com](http://www.walkersontheweb.com).
